THE QUEEN has been graciously pleased to signify her intention to confer the Decoration of "The Victoria Cross" on the under-mentioned Officers of Her Majesty's Indian Forces, whose claims to the same have been submitted for Her Majesty's approval on account of acts of bravery performed by them in India, as recorded against their names, viz. :—

Late 2nd Bengal Native Infantry.—Colonel JAMES TRAVERS.—Date of act of bravery, July, 1857.—For a daring act of bravery in July, 1857, when the Indore Presidency was suddenly attacked by Holkar's Troops, in having charged the guns with only five men to support him, and driven the gunners from the guns, thereby creating a favourable diversion, which saved the lives of many persons, fugitives to the Residency. It is stated that Officers who were present considered that the effect of the charge was to enable many Europeans to escape from actual slaughter, and time was gained which enabled the faithful Bhopal Artillery to man their guns. Colonel Travers's horse was shot in three places, and his accoutrements were shot through in various parts: He commanded the Bhopal Levy.

Late 46th Bengal Native Infantry.—Lieutenant Colonel SAMUEL JAMES BROWNE, C.B.—Date of act of bravery, 31st August, 1858.—For having at Seerporah, in an engagement with the Rebel Forces under Khan Alle Khan, on the 31st of August, 1858, whilst advancing upon the enemy's position at day break, pushed on with one orderly Sowar upon a nine-pounder gun that was commanding one of the approaches to the enemy's position, and attacked the gunners, thereby preventing them from reloading and firing upon the Infantry, who were advancing to the attack. In doing this a personal conflict ensued, in which Captain, now Lieutenant Colonel, Samuel James Browne, Commandant of the 2nd Punjab Cavalry, received a severe sword-cut wound on the left knee, and shortly afterwards another sword-cut wound, which severed the left arm at the shoulder, not, however, before Lieutenant Colonel Browne had succeeded in cutting down one of his assailants. The gun was prevented from being re-loaded, and was eventually captured by the Infantry, and the gunner slain.

CIRCULAR, No. 666.
FOREIGN.

War Office, Pall Mall, S.W., 16th February, 1861.

SIR,—I am directed by Lord Herbert to request that, upon your receiving any bills of lading from England containing books or stationery consigned to different Offices, Regiments or individuals, you will without delay notify the particulars to the parties concerned, together with the name of the vessel and the date of the bill of lading.

I am, Sir, your obedient Servant,

J. CRAWFORD CAFFIN.

The Military Store Officer in charge at —.

CIRCULAR MEMORANDUM,

Addressed to the Army at Home and Abroad.

General No. 106.

Horse Guards, S.W., 15th February, 1861.

1. His Royal Highness the General Commanding in Chief has had under his consideration the necessity of recalling to full pay service all Officers now on half pay who are able to serve, and wishing also to give to Officers on half pay the opportunity of retiring from the Service by the sale of their Commissions, he hereby announces, with the concurrence of the Secretary of State for War, that they will be permitted to do so, to a limited extent, in the manner and under the restrictions hereinafter specified.

2. This arrangement to include General Officers who may be in receipt of the half pay only of the regimental rank in which they retired.

3. The individuals disposed to avail themselves of this arrangement shall make application to the General Commanding in Chief, through the Military Secretary, according to the form annexed.

4. The sales to take place under the following restrictions, viz.:—

No person to be allowed to sell who has passed the age of sixty years, or who cannot produce a certificate from the Army Medical Department at Head Quarters, or, if in a colony, the certificate of a medical board, or if no medical board can be assembled, the certificate of the Senior Medical Officer, showing that his retirement does not result from impaired constitution threatening earlier dissolution than a person of his age may expect in the common course of nature.

5. The price of the Commissions to be paid to the Officers selling out shall be the regulation price of the rank in which they retired, or such portion as their services may entitle them to, less the difference received by them between full and half pay.

6. It is to be understood that no Officer on the half pay list, who may hold a garrison situation, will be permitted to retain it if he should sell under this arrangement.

7. The time allowed for the operation of this regulation shall be limited to six months for Officers at home, and to one year for Officers residing in the colonies.

8. Officers selling their Commissions under this regulation will be granted the brevet rank to which they might be entitled had they been restored to full pay to sell in the usual manner, their names being retained as Retired Officers in the Army List accordingly.

CIRCULAR, No. 106—continued.

9. As the funds at the disposal of the Secretary of State for War for this purpose are limited, the applications will be considered in the order in which they are received; and when the funds are expended, no further sales will be allowed.

10. Officers of Artillery and Engineers on the half pay list who may be desirous of availing themselves of the benefit of this regulation, so far as the provisions thereof can be made applicable to them, are at liberty to make application accordingly; but, as such Officers are not, under ordinary circumstances, eligible to dispose of their Commissions by sale, each application, as received, will be specially considered with reference to the previous service of the Officer.

By Command.

JAMES YORKE SCARLETT,

Adjutant General.

Stores—1 (1861).

Horse Guards, S. W., 20th February, 1861.

His Royal Highness the General Commanding in Chief directs, that whenever Regimental Boards of Inspection find it necessary to reject any articles issued from Government Stores, either on account of damage received in transit or of inferiority to pattern, it is to be understood that such articles are not to be considered as finally rejected.

The Officer convening the Board will make a reference on the subject to the Senior Officer at the Station, who, after making such inquiry or personal inspection as he may think fit, will, in the case of Regiments at home, refer the report, with his opinion, to the Adjutant General, and in the case of Regiments in the Colonies will decide whether the articles rejected by the Board shall be taken into wear or not. In either case the proceedings of the Board, with a special report, will be forwarded to the Adjutant General.

By Command. JAMES YORKE SCARLETT,
Adjutant General.

Penal Servitude—1 (1861).

Horse Guards, S. W., 21st February, 1861.

His Royal Highness the General Commanding in Chief, with the concurrence of the Secretary of State for War, desires that hereafter Soldiers who may be convicted by Courts Martial or by the civil power, and sentenced to penal servitude, shall not, as a consequence of such sentence, be discharged from the Service.

Such offenders will be sent to a prison to be specially appointed for them.

An immediate report of any such sentence of penal servitude should be made to the Adjutant General of the Forces, for the information of the General Commanding in Chief.

General No. 109.

Arms—1 (1861).

Horse Guards, S. W., 25th February, 1861.

INSTANCES having occurred in which Regimental Boards of Survey have subjected rifles supposed to be defective in accuracy of shooting to tests not only injurious to the arms, but also not calculated to elicit the truth as to their capabilities, and there being no fixed rules for general guidance on this subject, His Royal Highness the

CIRCULAR, No. 109—continued.

General Commanding in Chief, with the concurrence of the Secretary of State for War, is pleased to desire that, whenever it may be found necessary that rifles should be examined by Regimental Boards with a view to test their accuracy of fire, the following course should invariably be observed:—

- 1st. The arms must be previously examined and cleaned in the Armourer's shop by the Armourer Serjeant.
- 2nd. One of the best and steadiest shots in the Battalion should be selected to fire *all* the arms under examination.
- 3rd. The charges of powder should be carefully weighed and the ammunition properly examined.
- 4th. No fixed rest is to be used, as they cannot be depended on, but any other description of rest may be used in firing from the shoulder.
- 5th. The diagram of the shooting should contain not less than ten shots for each range, not including the two or three trial shots necessary to ascertain the force and deviation of the wind, &c.
- 6th. The mean deviation should be taken from the point of mean impact, without reference to the centre aimed at.

His Royal Highness takes this opportunity of desiring that the practice of using what in some Regiments is called a nosing stick, or any brick dust or gritty substance for cleaning the interior of the barrel, is on no account to be permitted, as the lands thereby become worn and the shooting of the rifle is affected.

By Command. JAMES YORKE SCARLETT,
Adjutant General.

Staff—1 (1861).

Horse Guards, S. W., 28th February, 1861.

It being desirable that the claims to Staff Employment of Officers who have passed the final examination at the Staff College, and have fulfilled the requirements of the Regulations dated 23rd January, 1860, should not be lost sight of, the General Commanding in Chief directs the attention of General and other Officers commanding at the different Military Stations at home and abroad to the General Orders issued periodically from this Department, publishing the names of Officers who have passed successfully through the College; and His Royal Highness desires that, on the occurrence of a vacancy on the Staff in any command where there may be serving an Officer who has qualified himself at the Staff College (or at the late Senior Department of the Royal Military College), and whose rank may render him eligible for the vacant appointment, such Officer should, as a general rule, be recommended to fill the same in preference to one who has not undergone that ordeal.

They will, however, be placed under the usual Hospital stoppages during the periods of their being under treatment in Hospital.

HOME.

War Office, 13th March, 1861.

THE Secretary of State for War has approved of the adoption of the system of sales by auction at the proper season, of the grass or hay on War Department property which is not let, in lots of a size convenient for purchasers, wherever that system may be applicable.

Instead of advertising for tenders, Commanding Royal Engineers will, therefore, act accordingly, reporting the result of each sale which may take place under this order; and on the 1st January, 1862, they are requested to state their opinion of the advantages of this arrangement as compared with that of calling for tenders.

Whether it will be advisable to sell the grass as it stands, or to cut and convert it into hay and then dispose of it, are points which must be left to the discretion of Commanding Royal Engineers, who will adopt the course which they may consider the more advantageous.

WITH a view to the simplification of correspondence arising out of questions of issues of special Barrack allowances not provided for by existing regulations, the Secretary of State for War, with the concurrence of His Royal Highness the General Commanding in Chief, now directs that the following course shall be adopted:

When any special issue is proposed beyond that authorized by the regulations, the General or other Officer Commanding will invariably confer with the Barrack Master, before recommending such issue for the consideration of his Royal Highness the General Commanding in Chief, and will transmit the Barrack Master's opinion with his own report upon the subject.

The Barrack Master will also at once forward to the War Office for the consideration of the Secretary of State a statement of the case accompanied by copies of any remarks which he may have made upon it.

The Barrack Master will understand that in thus directing him to furnish reports to Officers Commanding, the Secretary of State contemplates no change in his position, and that his direct responsibility as immediate local adviser of the Secretary of State in these matters, will remain unaltered.

HOME AND FOREIGN.

War Office, Pall Mall, 5th April, 1861.

THE existing arrangements for the painting and repair of the gun carriages, wagons, and carts belonging to the Royal Artillery, and the wagons and carts of the Military Train, as well as for the painting and lacquering the various natures of ordnance and carriages in position, together with the platforms, shot, shell and shot furnaces in charge of the Commanding Officer of the Royal Artillery, having been under consideration, Lord Herbert has decided, with the concurrence of His Royal Highness the General Commanding in Chief, that the following revised Regulations shall be observed in the performance of these duties in future:—

1. All gun-carriages, wagons, and carts in charge of the Horse and Field Brigades, Royal Artillery, and Military Train, are to be painted with one coat of paint and lettered annually.

This service is to be performed at home in the spring, and abroad at the expiration of the summer season, and, as a general rule, is to be executed by the wheelers of the battery or corps.

2. All guns, &c., forming the armament of fortresses and garrisons are to be lacquered and painted biennially, but should it be found on inspection that guns, &c. mounted on the surface of works are in a bad state from exposure to the spray of the sea, they should be lacquered and painted every year instead of once in two years, as at present. On this point, considered as a question of expense, a sound discretion is to be exercised.

3. The painting and repairing the garrison gun-carriages in charge of the Royal Artillery, and the lacquering and anti-corrosioning the ordnance, shot, shell, &c., is to be performed under the orders of the Commanding Officer of Artillery, instead of by the Military Storekeeper as heretofore.

4. Whenever it may be deemed of sufficient importance that guns and carriages, from their prominent positions, should be rendered less conspicuous to an enemy, or to protect the woodwork of the carriages from the sun, Commanding Officers of Artillery are authorized to demand green or stone colour paint resembling the face of the work, as may be most suitable for the purpose of their respective stations, reporting at the same time the reasons which render such colours preferable. In the absence of any special application to the contrary, the ordinary colour will be supplied.

5. The work connected with garrison guns should, as far as possible, be performed by the artificers of the garrison batteries, assisted by competent gunners, and the work superintended by an intelligent non-commissioned officer. Working pay will be allowed according to the Queen's Regulations, page 283, to the non-commissioned officers, artificers, and gunners employed on this service.

6. The Pay Lists will be drawn up and certified as prescribed by Horse Guards' Circular of the 11th August, 1859, (Working Pay—1 (1859)), and War Office Circular, No. 475.

7. In the case of the Horse and Field Brigades, Royal Artillery, and Battalions of the Military Train, whenever it may be found absolutely necessary to employ other soldiers or workmen, whether for services to field or garrison guns, &c., in addition to the paid

CIRCULAR, No. 673—continued.

artificers of the corps (which would involve a claim for working pay,) a special representation of the circumstances which render such employment indispensable is to be made, before any such expense is incurred, *if at home*, to the Adjutant General, who will, *if it is absolutely necessary to incur the expense of Working Pay*, transmit it to the Under Secretary of State for War; and *if abroad* to the General Officer Commanding the troops, for authority to incur the expense.

8. The Military Storekeepers will provide in their *estimates* for such *labour* as may probably be required, and in their *annual demands* for the *materials* required in repairing, painting, coating, lacquering and anti-corrosioning of all guns, field and garrison, mounted and dismounted, with their carriages, wagons, carts, platforms and appurtenances, shot furnaces, shot and shell.

9. To enable the Military Storekeeper at each station to frame his estimate for labour, and regulate his demand for material, the Officers Commanding the Royal Artillery in the District and Battalions of Military Train will furnish him annually, not later than the *first week in September*, with a *statement* of the quantities of the different materials they will require, together with a return of the numbers and nature of the guns, carriages, platforms, shot, shell, &c. in their respective charge, which will require painting, lacquering, &c. in the following financial year.

10. At *home* stations, the Commanding Officers of Artillery will forward their *demands* for such materials as will be required, accompanied by a *statement* of the stores to be painted or lacquered, &c., to the Deputy Adjutant General of Artillery at the Horse Guards in the month of *December*, for transmission, before the *31st March*, to the Secretary of State for War, who will then give the necessary instructions to the Military Storekeepers of the respective districts for the issue.

11. In like manner, and at the same periods, the Officers Commanding Battalions or Detachments of the Military Train will send their *demands* and statements direct to the Colonel Commanding the Corps, for transmission to the War Office.

12. At *foreign* stations the Officers Commanding will make their demands upon the Military Storekeeper under the authority of the General Officer Commanding.

13. The rules regarding the painting and lacquering, &c. of the guns, carriages, platforms, shot and shell, &c. in charge of Military Storekeepers, will remain as at present prescribed in the Home Regulations (Ordinance) of 1855.

14. Except under very peculiar circumstances, which should be reported, the Royal Engineer Department will cease to perform this duty.

15. In order to enable the Commanding Officers and Military Storekeepers to calculate the quantities of material to be demanded annually and provided in the estimates, six statements of the proportions of paint, putty, brushes, tools, &c., are annexed for their information and guidance.

The foregoing regulations are substituted for those undermentioned:—

1. THE Secretary of State for War considering it desirable to establish a greater uniformity in the Proof Reports Gunpowder forwarded to the Superintendent of Royal Gunpowder Factories, at Waltham Abbey, from the several Stations at home and abroad, as well as to render the Proof results a more certain criterion of the general state of Powder in charge, has been pleased, with the concurrence of His Royal Highness the General Commanding in Chief, to approve of the annexed Form,* W. O. No. 1,517, and W. O. No. 1,518, being used by the Inspector of Warlike Stores and other Proof Officers, in lieu of the various Forms which have hitherto been furnished.

2. Form No. 1,517 is to be filled in by the Military Storekeeper and Inspector of Warlike Stores as far as practicable, when the directions in Circular No. 541, for the arrangement of the Store, have been carried into effect, and sent to the Superintendent, Royal Gunpowder Factory, Waltham Abbey, who will cause the original Proof of other several lots at Purfleet to be traced and inserted. The Form will then be returned to the respective Stations for the information of the Storekeeper and Proof Officer, and will constitute the basis of a record of the Powder in charge; and the subsequent Proofs at the Station as they take place being inserted, the state of the Powder in store will always be known.

3. In order that this record of the Powder in charge may be kept up at the several Stations, the Storekeeper at Purfleet will in future send with the delivery voucher a memorandum of the Purfleet Proof of the lot or lots issued, and this information should be recorded at once on the receipt of the Powder.

4. Form No. 1,518 is the report of Proof to be forwarded annually to the Superintendent of Royal Gunpowder Factories, Waltham Abbey.

5. When the store of Powder has been properly arranged as directed by Circular No. 541, and the Form No. 1,517 completed, the following mode of proceeding with the periodical Proof will probably be found convenient, and sufficient to secure an accurate knowledge of the condition of all the Powder in charge.

6. Ten barrels of Powder may be selected indiscriminately from each of the different lots, which together constitute about *one-third* part of the whole quantity in store, when samples taken from each and mixed together will form the sample to be fired the *first* year. In the *second* year the same course may be pursued by testing samples from other barrels taken out of the lots composing *one-third* part more of the total store; and the remaining third portion would undergo Proof in like manner in the *third* year.

7. In the succeeding year the time will have again come round for proving those lots of Powder which underwent the test in the first year, and so on.

8. The barrels from whence the samples are drawn should in each case be marked with the date of Proof, and other barrels taken when the same lot is again proved.

9. The Inspector of Warlike Stores or other Proof Officer will, however, carry on the Proof by sight and hand as much further as he may think necessary, and even resort to Proof firing, should it be desirable from the Magazines being damp or defective, or the condition of the Powder doubtful from any other cause, since it is to be clearly understood that these general arrangements are not intended to relieve Inspectors of Warlike Stores, or others upon whom the duty may devolve, from the responsibility of satisfying themselves that the Powder at their respective Stations is always in good condition.

WHEREAS we have judged it expedient to revise certain parts of our Royal Warrant of the 14th October, 1858, which regulate the full and half-pay retirements of Officers of our Army, it is our will and pleasure, that instead of the provisions contained in Clauses 30, 45 and 46 of the aforesaid Warrant, which are hereby cancelled, those contained in this our Royal Warrant shall be adopted.

New Clause 30.

The Colonels, Lieutenant Colonels, Majors and Captains of the Guards and Line allowed to retire upon full pay shall be selected and recommended to us by our Commander in Chief, with the concurrence of our Secretary of State for War, and appointed according to their regimental, and not according to their brevet rank.

But no Officer shall be placed on the retired full pay list until after a service of thirty years as a Commissioned Officer on full pay of a Regiment, or in a Staff situation; or if promoted from the ranks, until after an aggregate period of not less than thirty years' service in all grades, of which at least fifteen years shall have been as a Commissioned Officer on regimental full pay or on the Staff;—unless under special circumstance arising from ill health contracted in the service, or in consequence of wounds received in action, it shall be deemed expedient by our Secretary of State for War to reduce such service to any shorter period than thirty years.

New Clause 45.

An Officer having actually done duty in some Regiment or Corps, or in some other military capacity as a Commissioned Officer in the public service, for a period of at least three years, shall be entitled to be placed on the half-pay establishment on reduction from full pay.

An Officer who has been promoted from the ranks shall be entitled to the benefit of this provision after one year's service on full pay as a Commissioned Officer, and at least five years' service as a Non-Commissioned Officer.

New Clause 46.

No Officer shall be permitted to retire upon permanent half-pay until after a service of twenty-five years as a Commissioned Officer on full pay of a Regiment or in a Staff situation; or if promoted from the ranks, until after an aggregate period of not less than twenty-five years' service in all grades, of which at least ten years shall have been as a Commissioned Officer on regimental full pay or on the Staff;—unless the retirement shall be occasioned by unfitness for service, resulting from wounds received in action, or from ill health, certified to have been contracted in and by military service, or shall be in accordance with the provisions laid down for Officers of the Royal Artillery and Royal Engineers in Clause 51 of our Royal Warrant of the 14th October, 1858.

Additional Clause.

The provisions in Clauses 30, 45 and 46, for Officers of the Guards and Line promoted from the ranks, are also applicable to the same class of Officers of the Royal Artillery and Royal Engineers.

Ammunition—1 (1861).

Horse Guards, S. W., 20th March, 1861.

DOUBTS having arisen as to the relative duties of the Adjutant General's Department and the Commanding Officer of Artillery with an Army, as regards reserves of ammunition, and it being a matter of importance to the efficiency of the Army that those duties should be clearly defined, and no uncertainty should exist as to the functions of the Officers concerned in the provision of ammunition for the use of the troops, his Royal Highness the General Commanding in Chief deems it expedient to direct that the Circular dated Horse Guards, 14th March, 1860, General Number 16, be considered as cancelled, and, with the concurrence of the Secretary of State for War, the following Regulations substituted:—

1. The Adjutant General of an Army in the field is responsible to the General Commanding in Chief for the ammunition of that Army.

2. To enable him efficiently to perform this duty, he will be furnished as often as he may deem necessary, by the Officer commanding the Royal Artillery and the Chief Military Store Officer with the Army, with returns of the state of the reserves in Royal Artillery and Military Store charge respectively.

3. The Assistant Adjutants General of Divisions will be held responsible that the officers commanding the divisions are at all times made acquainted with the state of their reserves of ammunition, and as often as may be required will be furnished with the necessary reports from the Officers commanding the Royal Artillery of the Division, and any deficiency in the regulated amount of ammunition is to be immediately made known to the Adjutant General of the Army.

4. The first and second reserves of gun and small arm ammunition are to be in charge of the Royal Artillery, and conveyed and replenished as hereinafter directed;

CIRCULAR, No. 120—continued.

the third reserves of gun and small arm ammunition, and the grand depôt of reserve, will be in the custody of the Military Store Department.

5. The first reserve of ammunition for the guns, (about fifty rounds per gun,) is that contained in the second line of wagons of each battery.

6. The first reserve for small arms (about thirty rounds per man) will be conveyed in small arms ammunition wagons attached to the field batteries of the several divisions, and each of these wagons will be provided with cradles to admit of the ammunition being taken by the leading horses of the teams to such positions as it may be found impracticable to reach with the wagons themselves. Should the state of the country in which the Army is acting render it necessary to adopt any other method of transporting this reserve, the means by which it is to be accomplished are to be determined by the General Commanding in Chief, and carried out by the Royal Artillery.

This reserve is, under all circumstances, to be at hand, and, in the event of it being found necessary to separate the wagons, from the batteries to which they are attached, the Divisional Commanding Officers of Artillery must make arrangements for their being placed under proper charge, in some safe spot, easily accessible to the troops, in order that no unnecessary delay may occur when occasion shall arise for making issues to corps whose supplies are exhausted.

6. The second reserve for guns and small arms, (at the rate of forty-eight rounds per gun, and fifty rounds per man), will be conveyed by the Royal Artillery, in wagons of the Service, or by such other means as circumstances may require, and are always to be up with the Army, but kept, as far as practicable, from under fire.

8. The reserves referred to in the two preceding paragraphs are to be under the immediate orders of the Officers in command of Artillery with each Division, who will be responsible to the Officer Commanding the Division, that the ammunition of the first reserves is from time to time completed, as far as circumstances will permit, from the second reserves. The second reserves are to be completed from the reserves under the charge of the Military Store Department, upon requisitions of the Officer Commanding the Royal Artillery with the Army, made through the Adjutant General. On emergency, however, the Military Store Officers in charge of reserves of ammunition, are to make issues on requisitions of Assistant Adjutants General of Divisions.

9. The third reserve for guns and small arms, in charge of the Military Store Department, should not be more than an ordinary two days' march in rear of the Army, its transport is to be provided for in such manner as the General Commanding in Chief may consider the most advantageous. Should the base of operations, where the grand depôt of reserve is placed, be farther distant than an ordinary two days' march from the reserves last mentioned, intermediate reserves will be required; upon the organization and disposition of which the Commanding Officer of Artillery and the chief Military Store Officer should be required to report to the Adjutant General, that the General Commanding in Chief may determine what course should be followed to ensure a regular and sufficient supply of ammunition from the grand depôt of reserve for the use of the Army.

10. The supply of ammunition in the field is to be obtained on requisitions of Commanding Officers of Corps to the Assistant Adjutants General of Divisions, from whom the Commanding Officers of Artillery of Divisions will receive the orders of the General Officer Commanding as to the extent of issue to be made. When, however, the Army, or a part of it, is actually engaged, the Commanding Officers of Artillery with Divisions may issue ammunition on the requisition of any Commanding Officer whose corps may be in want of it, reporting that he has done so as provided in par. 3.

11. In fortresses, garrisons, &c., General Officers Commanding are to hold the Military Storekeeper responsible that the reserve of small arm ammunition in his charge is equal to the authorized proportions, and available at all times for issue if required.

12. The reserve referred to in the 11th paragraph is to be maintained to the extent authorized by the Secretary of State for War, in addition to the store of small arm ammunition for the current service of regiments and corps, the quantities for which service are to be determined by the General Officers Commanding, in accordance with the Queen's Regulations, pages 112 and 113, and communicated by the Adjutant General to the Military Storekeeper that he may, by demand on the War Office from time to time, obtain the necessary supplies. Issues from this store of ammunition are to be made on requisitions of Commanding Officers of Regiments and Corps, to be sent through the Adjutant General, for the authority of the General Officer Commanding, *if abroad*, and *if at home*, of the Secretary of State for War.

CIRCULAR, No. 120—continued.

18. Small Arm Ammunition Wagons have been sent to the Camps of Instruction at home, and General Officers in Command at those Camps are to accustom the Troops to obtain small arm ammunition for exercise when in the field, in the manner that would be followed in actual warfare, in the event of the supply of ball cartridge with the Infantry being exhausted.

By Command.

Adjutant General.

GENERAL ORDER. No. 779.

Staff College—3 (1861).

Horse Guards, S. W., 21st March, 1861.

THE following Regulations regarding the examination of Officers who may be Candidates for admission to the Staff College in February, 1862, are published for general information :—

There will be vacancies for fifteen Officers, two of whom may belong to the Royal Artillery.

HOME STATIONS.

Officers serving in the United Kingdom, who are desirous of entering the Staff College, will be examined in London on the 22nd July next and following days.

Commanding Officers of Royal Artillery and of all Regiments and Depôts of the Cavalry, Guards and Line on the Home Station will forward to the Adjutant General through the usual channel, for the consideration of the General Commanding in Chief, the applications of such Officers as wish to compete for admission, together with the necessary certificates.

These applications should be sent in not later than the 15th June, after which date the Officers approved of by His Royal Highness will be instructed to place themselves in communication with the Council of Military Education, with the view to their receiving the rules for the examination.

FOREIGN STATIONS.

At Foreign Stations the following regulations will be strictly adhered to :—

The examination will be held on the 22nd July and following days, or as soon after that date as the examination papers shall be received from the Council of Military Education.

A Board of Officers will be appointed by the General Officer in command, and will consist of three Officers, one of whom to be, when practicable, a Staff Officer, having the rank of Field Officer, and the other two, if possible, not under the rank of Captain. One of these Officers will belong to one of the Scientific Corps where any such Officer can be obtained.

GENERAL ORDER, No. 779—continued.

The examinations will be conducted by means of the same printed questions as are set for the examination of Candidates in London, and they are to be answered in the presence of the Board.

The Board will give to each Candidate a number, which he will affix to each of his examination papers instead of his name. He will retain the same number throughout the examination.

The Board will give to each Candidate a paper of the printed examination questions on each subject at the time specified for the examination in that subject.

The Candidates will write their answers to the questions in the presence of the Board, and their papers, together with the printed examination questions, will be collected at the hour appointed, and made up into a packet, which will be sealed before being taken from the examination room.

The Board will immediately on the conclusion of the Examination forward the papers of the Candidates to the General Officer Commanding, for transmission to the Council of Military Education, accompanied by a certificate that the Candidates obtained no assistance from books, or help of any kind, in their Examination. The Board will, at the same time, forward the names of the Candidates, corresponding with their index numbers in the Examination, in a separate envelope, for transmission to the Council of Military Education.

The following will be the order of the Examination:—

| 1st Day. | | | | | |
|--|-----|-----------|-----|----------|----------|
| Military Drawing | ... | ... | ... | ... | 3 hours. |
| Hindustani | ... | ... | ... | ... | 3 " |
| 2nd Day. | | | | | |
| Fortification | ... | ... | ... | ... | 3 hours. |
| " | ... | ... | ... | ... | 3 " |
| 3rd Day. | | | | | |
| Mathematics—Obligatory portion | ... | 1st Paper | ... | 3 hours. | |
| " | ... | 2nd Paper | ... | 3 " | |
| and "Voluntary" portion | ... | 1st Paper | ... | 3 " | |
| 4th Day. | | | | | |
| Mathematics—Voluntary portion, 2nd Paper | ... | ... | ... | 3 hours. | |
| Military History— | ... | 1st Paper | ... | 3 " | |
| 5th Day. | | | | | |
| Military History—2nd Paper | ... | ... | ... | 3 hours. | |
| Military Geography | ... | ... | ... | 3 " | |
| 6th Day. | | | | | |
| French | ... | ... | ... | 3 hours. | |
| Chemistry | ... | ... | ... | 3 " | |
| 7th Day. | | | | | |
| German | ... | ... | ... | 3 hours. | |
| Geology | ... | ... | ... | 3 " | |

There will be, in all cases, an interval of not less than one hour between the two periods of Examination on each day.

The Papers will be collected at the appointed hours by a Member of the Board. Any Candidate, however, who may have finished his Examination Paper on any subject before the hour named, may deliver it into the hands of a Member of the Board.

Candidates will bring their writing and drawing materials, instruments, &c., and also the tables of logarithms they are in the habit of using. No other books or notes of any description will be allowed to be used.

It is scarcely necessary to observe that no communication whatever will be allowed between the Candidates at the Examination.

Officers Commanding Regiments abroad are to transmit to the General Officer in Command a return of the Officers desirous of competing, together with a Medical Certificate of good health and fitness for the active duties of the Staff. Such Officers will then be ordered to join at Head Quarters, for Examination, or at any other places which may be selected for the convenience of those at the more distant Stations.

With reference to paragraph IV. of the revised Regulations for the Staff College, published with the General Order, No. 743, of the 23rd of January, 1860, which directs "that if the Commanding Officer of the Regiment, or the General Officer Commanding

GENERAL ORDER, No. 779—continued.

cannot recommend the application of any Candidate, the grounds of objection are to be distinctly stated,"—It is to be observed, that, as there will not be time at distant Foreign Stations to refer to the Adjutant General on the subject, such Officer should, in all cases, be permitted to undergo his examination, on the understanding, however, that the objections urged against his application will still be submitted for the decision of his Royal Highness the General Commanding in Chief.

General Officers commanding at Foreign Stations will place no restrictions upon Officers competing, further than the exigencies of the Service may absolutely require. It will be understood that the rule by which only one Officer can be spared from a Battalion at a time, for the purpose of studying at the Staff College, does not apply to Candidates from Battalions, which have Officers now at the College, but whose course of study will terminate in December next.

General Officers Commanding at Foreign Stations will select the hours for the examination which are best suited to the climate and circumstances of the country, taking care, however, to conform strictly to the number and distribution of the hours, as detailed in the foregoing regulations.

On the completion of the examinations, General Officers Commanding should transmit the Candidates' papers to the Vice President of the Council of Military Education, 1, Whitehall Yard, with the least possible delay, in order to enable officers from distant Stations, who may be successful in the competition, to join the College early in the following February. They will at the same time forward to the Adjutant General a return of the Officers examined, with their certificates, as required by the regulations. In the event of there being no Candidates, General Officers Commanding will notify the fact to the Vice President of the Council, without delay.

Officers serving abroad, who may be successful Candidates, will be allowed the regulated passage-money home, on joining the Staff College.

The names and examination numbers of the Candidates who are successful in the competition, as well as of those who prove themselves qualified, and the examination numbers alone of Candidates who fail, will be published immediately after the reports of the Examiners have been received by the Council of Military Education, with the total number of marks gained by each candidate, and his place on the list.

By Order of HIS ROYAL HIGHNESS
THE GENERAL COMMANDING IN CHIEF.

JAMES YORKE SCARLETT,
Adjutant General.

CIRCULAR, No. 677.

General No. 1922.

War Office, 20th April, 1861.

LORD HERBERT has approved of the adoption of Metal Cylinders, for the conveyance of small quantities of Small Arm Ammunition by Railways, in order to expedite the issues to Regiments, and also to reduce the expense incurred by the employment of powder vans, for which these metal cylinders have been found upon trial to be a convenient and an equally safe substitute.

A supply of these cylinders for half and quarter barrels will, therefore, be sent to each of the Military Store Magazines in Great Britain.

They are to be conspicuously marked with the name of the Station to which they belong, and with the letters W. ↑ D.

Military Storekeepers will bring them on charge as "*Articles in use*," and retain them on charge as such, notwithstanding their being sent away as packages for the ammunition barrels.

As these cylinders are expensive, and the numbers supplied to each Station limited, Commanding Officers of Regiments, Volunteers, and others, are *immediately*, upon their receipt, to empty and return them with the *spanner* and also the *bags* in which the barrels were wrapped to the Military Store Officer at the Station from which they were sent, by the same mode of conveyance which brought them.

As any neglect in the immediate return of these articles will frustrate the objects for which they have been introduced, Military Storekeepers are strictly desired to report every instance of unnecessary delay to the Secretary of State for War.

Volunteers, Enrolled Pensioners, Military
Storekeepers, &c.

HOME AND FOREIGN.

War Office, 26th April, 1861.

SIR,—The Secretary of State for War having decided, with the concurrence of His Royal Highness the General Commanding in Chief, that a certain proportion of condemned sheeting in lieu of the Cloth selvages alluded to in the Circular Memorandum, dated Horse Guards, 23rd July, 1859, No. 183, shall be issued annually to each soldier for the purpose of cleaning his rifle, viz.:—20 pieces of cotton or linen, 6 in. long, by 3 in. broad, averaging by weight $3\frac{1}{2}$ oz., the following regulations are promulgated on the subject, for the guidance of Officers Commanding and Barrack Masters.

All linen and cotton sheets after having been condemned and dealt with according to the instructions in the Barrack Regulations, are to be weighed and handed over to the Barrack Master of the District, who will bring them on charge by weight, transmitting an annual account of the same with the general return of stores. Upon a requisition being made by a Commanding Officer for the annual supply of sheeting, the Barrack Master will submit the same to the Secretary of State for authority to issue, and on such authority being given, he will supply the Quartermaster of the Regiment with the number of pounds of sheeting in bulk to which the troops in Barracks are entitled; it will then rest with the Officer Commanding to direct the Quartermaster to weigh and issue to each man, at such periods as may be deemed expedient, a separate quantity of sheeting for a year's consumption, according to the enclosed scale, which shows the quantity to which any given number of men are entitled.

CIRCULAR, No. 681.

War Office, 7th May, 1861.

1. THE subject of the most convenient method for repairing the Arms in possession of the disembodied Militia in Great Britain having been under consideration, Lord Herbert has decided that the following arrangements shall be carried into effect :—

2. All disembodied Militia Regiments will, at the termination of each annual training period, return such of their Arms as are found to be in need of repair, to the Officer in charge at the War Office Establishment hereinafter mentioned, by the cheapest mode of conveyance.

3. The Officers of the Regiments will be desired to make a careful inspection of the Arms in order to avoid sending a greater number into store for repair than may be really necessary.

4. The cost of repairing such of the Arms as may have become repairable by *fair wear* will be borne by the public, but all other damages to Arms will be charged against, and be paid for by, the Regiment.

5. The repair of all Arms forwarded by the different Corps to any of the War Office Stations enumerated in this Circular, will be executed in a similar manner and to the same extent as laid down in the Queen's Regulations for the repair of Arms in possession of the Regular Army.

6. The charges to be made against the Regiment will also be in conformity to those laid down in the Queen's Regulations.

7. When an Arm is sent to a War Office Station for the repair of a particular part, only that specific repair will be performed, and the Arm will in all other respects be returned to the Regiment in the same condition as when received for repair.

8. Commanding Officers of Militia Regiments have been requested to be very particular in forwarding proper vouchers with the Arms to be repaired, stating the number of Arms sent, and also the *letters* and *numbers* on the *heel plates*, and the *specific repairs* required.

9. The expense of the conveyance of the Arms will be borne by the public.

10. The Superintendents of Small Arm Factories and Military Storekeepers will make the necessary arrangements at their respective Stations for the receipt and repair of such Arms as may be sent to them from the disembodied Militia for that purpose.

CIRCULAR, No. 681—continued.

11. With respect to the repairs chargeable to Regiments, the Superintendents and Military Storekeepers to whom the Arms have been returned, will keep such an account of the expense of repairing particular Arms, that the claim may be rightly made against the Captains of the Companies to which the Arms respectively belong.

12. The charges for repairs to be made against a Regiment are to be reported by the Superintendents or Military Storekeepers (as the case may be) to the Officer commanding the Regiment, and also to this Office, with a view to their recovery by the Accountant General.

13. In order to prevent the Arms becoming injured in transit, Commanding Officers have been desired to be careful to preserve the chests in which they were received, with all their fittings, so that the Arms may be properly packed before being returned into store.

14. If the chests originally supplied with the Arms are missing, the cost of providing new ones will be charged to the Regiment.

15. The annexed list shows the Stations to which the Arms are to be returned in order to be repaired; and should it be found at either of them that the armourers' shops are not fitted with all the requisite appliances for the repair of Arms, the Military Storekeepers at such Stations will immediately report what additional means are necessary for the purpose.

In consequence of the injuries which occasionally happen to the spare Arms of Companies from being packed without sufficient care, His Royal Highness the General Commanding in Chief desires that the attention of Captains of Companies may be directed to the form of Arm Chest used in packing the Interchangeable Arms made in the Government Factory.

These chests can, with a few cleats—as shown in the annexed drawing—properly fixed by an Armourer Serjeant, be made to hold with perfect security, and freedom from the slightest injury, any of the various Arms now in the possession of a Regiment, viz., the Enfield Rifle, pattern '53, both long and short butts; and the Short Rifle with sword bayonet.

GENERAL ORDER. No. 786.

Staff College—5 (1861).

Horse Guards, S.W., 24th April, 1861.

THE accompanying revised Regulations for the Staff College having been approved by Her Majesty, are promulgated for the information and guidance of Officers of the Army.

GENERAL ORDER, No. 786—*continued*.

Although only one Officer can be spared from a Battalion, at a time, for the purpose of studying at the College, this will not, necessarily, prevent a Battalion sending more than one to compete at an examination, if circumstances admit of their absence from their Regiment.

The principle under which Officers are allowed to enter the Staff College being that of pure competition, it follows that Candidates who may be found qualified at any examination, but who, from want of a sufficient number of vacancies, cannot then be admitted, will not have any claim to subsequent admission, without undergoing another competitive examination.

With reference to the last paragraph of Art. XIII., it is hereby notified that, until further orders, the portion of that Article which refers to the attendance at the final examination of Officers who have not passed through the College will be suspended.

By Order of His ROYAL HIGHNESS

THE GENERAL COMMANDING IN CHIEF.

JAMES YORKE SCARLETT.

Adjutant General.

STAFF COLLEGE.

Horse Guards, S. W., 24th April, 1861.

THE following Regulations for the Staff College are substituted for those of the Memorandum of the 23rd January, 1860, published with the General Order No. 743.

I. The Staff College is open to Officers of all arms of the Service, and consists, at present, of 30 Students; admission to the College being determined by a competitive examination. One Officer only can be admitted at a time from a Battalion of Infantry, or a Regiment of Cavalry, and only 4 Officers at a time from the Corps of Royal Artillery; but so far as the exigencies of the Service shall permit, there will be no limitation to the numbers allowed to compete for admission.

II. No payment is required from Students to the funds of the College.

III. The qualifications requisite for admission, are—

1st. A previous service of not less than three years, exclusive of leave of absence.

2nd. A certificate from his Commanding Officer that the Candidate is an intelligent, active, zealous and well-conducted Officer, and thoroughly acquainted with all his duties.

3rd. The Candidate, if not a Captain, to have passed the examination for a Troop or Company.

4th. A medical certificate of good health, and fitness for the active duties of the Staff.

IV. Commanding Officers of Regiments will, in every case, forward applications for admission to the Staff College, through the General Officer in command, to the Adjutant-General. If the Commanding Officer of the Regiment, or the General Officer commanding, cannot recommend the application of any Candidate, the grounds of objection to be distinctly stated.

V. The competitive examination for entrance to the Staff College comprises the following subjects, the relative value of each at the examination being shown by the number of marks attached to it:—

| | | | | | | | | Marks. |
|--|-----|-----|-----|-----|-----|-----|-----|--------|
| Mathematics | ... | ... | ... | ... | ... | ... | ... | 1,200 |
| Military History | ... | 600 | } | ... | ... | ... | ... | 900 |
| Military Geography | ... | 300 | | ... | ... | ... | ... | |
| French | ... | ... | ... | ... | ... | ... | ... | 300 |
| German | ... | ... | ... | ... | ... | ... | ... | 300 |
| Hindustani | ... | ... | ... | ... | ... | ... | ... | 300 |
| Fortification | ... | ... | ... | ... | ... | ... | ... | 600 |
| Military Drawing | ... | ... | ... | ... | ... | ... | ... | 300 |
| Mineralogy and Geology | ... | ... | ... | ... | ... | ... | ... | 300 |
| Chemistry, Heat, Electricity and Magnetism | ... | ... | ... | ... | ... | ... | ... | 300 |

In Mathematics, 400 marks are allotted to Arithmetic, the first four books of Euclid, and Algebra, including questions producing simple equations; and of this number at least 250 must be obtained for qualification.

Every Candidate must take up either the French, German or Hindustani Language for qualification; the qualifying minimum is, in French 150 marks, in German or Hindustani 100 marks.

GENERAL ORDER, No. 786—continued.

The remaining subjects, as well as the higher portions of Mathematics, may be taken up or not at the option of the Candidate, the marks gained therein being reckoned in determining his position in the List of Competitors. No Candidate, however, will be allowed to count marks in any subject left optional unless he obtains at least one-sixth of the number allotted to it.

In regard to Military History, early notice will on each occasion be given of the special campaigns on which questions will be set at the next ensuing examination.

VI. The examination of Officers serving in the United Kingdom, for entrance to the Staff College, is held in London, about the month of July, under the direction of the Council of Military Education.

In the case of Officers serving abroad the examinations of such as shall be allowed to compete are conducted by means of the same printed questions as are set for the examination of Candidates in London. These questions are to be answered in writing in the presence of a Board of Officers, which will be appointed by the General Officer in command, and which will certify that the Candidate has obtained no assistance from books, or help of any kind in the examination.

VII. The College course of study commences annually on or about the 1st February. The transmission of the printed Examination Papers to stations abroad is so arranged that the Examinations may be held simultaneously, and the merits of the Candidates decided upon in time to admit of those who are successful joining the Staff College by the 1st February next ensuing.

VIII. The following are the subjects of Instruction at the Staff College, viz.:—

Mathematics—the minimum course will embrace this subject up to Elementary Mechanics, inclusive.*

French, German and Hindustani.

Fortification and Artillery.

Topographical Drawing, Military Surveying and Sketching.

Reconnaissance.

Military Art, Military History and Geography.

Military Administration, including the organization and Equipment of Armies in the Field.

Military Legislation.

Elements of Natural Philosophy, Chemistry and Geology, as applied to the Military Sciences.

Exercise in Composition will be afforded to the Students during the whole course of instruction, in writing Memoirs or Essays on the subjects of the course.

Riding.

IX. The course of study occupies two years, which period is not to be exceeded except in cases of illness, and then only with the sanction of the General Commanding in Chief.

The yearly course is divided into two terms, viz., from 1st February to 15th June, and from the 15th July to the 15th December, the intervening periods constituting the vacations.

X. As Officers may be expected to join the College with very varied degrees of attainment, provision will be made to enable any Student who may be well prepared in any particular subject, to attend more especially to other subjects in which he may feel himself deficient. If, for instance, the Student should come to the College previously well instructed in Mathematics, he will be enabled to direct his attention principally to the Military Sciences, or to Languages, in lieu of Mathematical Studies.

XI. During the whole course, Monthly Reports of the application and progress of each Student will be forwarded for the information of the Council of Military Education. Examinations are held at the end of every half-year; the Summer Examination being conducted by the Professors of the College, and the Winter Examination by Examiners independent of the Establishment, under the superintendence of the Council of Military Education.

The Winter Examination at the termination of the first year of the Student's course is probationary, and any Students who shall fail to obtain one-half of the aggregate of marks will be removed. In the following subjects one-third of the marks respectively allotted to them must be obtained in order to count, viz. Mathematics, Fortification,

* A syllabus of the minimum course of Mathematics will be forwarded to any Officer on application to the Council of Military Education, 1, Whitehall Yard.

GENERAL ORDER, No. 786—continued.

Military Drawing and Surveying, Military History, Military Administration and one Foreign Language; and in the remaining subjects one-fifth must be obtained to be allowed to count. With respect to the Modern Languages in which Students may be examined, the same rule will be followed as is stated in the next Article. Should, however, any marked case of deficiency or neglect be brought under the notice of the Council of Military Education at any half-yearly Examination, or at any other period, such Student will be also liable to removal.

XII. The following are the marks allotted to each subject at the Final Examination. The obligatory minimum is also stated, below which the marks obtained in any subject will not be allowed to count:—

| | Maximum No. of Marks. | Minimum allowed to count. |
|---|--------------------------|--|
| Mathematics {One third of marks at 1st year's Probationary Examination} | 200 | |
| At Final Examination | 600 | 300 |
| Fortification and Artillery | 600 | 300 |
| Military Drawing and Surveying | 300 | (Obligatory) |
| Reconnaissance | 400 | 350 |
| Military Art, History and Geography | 600 | 300 |
| Military Administration and Legislation | 600 | 300 |
| French, German, Hindustani, or any other Modern Language in lieu of one of these | 400 each. | In one Language, 200 In any other Language, 133 |
| Chemistry, Heat, Electricity, Magnetism | 300 | 100 |
| Mineralogy and Geology | 300 | 100 |

Every Candidate will be required to obtain for qualification 350 marks in Military Drawing, Surveying and Reconnaissance; and an aggregate of 2,500 marks.

No marks will be allowed to count in Modern Languages if the minimum of 200 marks be not obtained in one Language.

In the examination in Modern Languages, great stress will be laid on original Composition.

Officers desirous of showing their proficiency in other Languages, in addition to the three which are allowed to be taken up for the competitive examination, may be examined therein, and a special report of their qualifications will be made to the General Commanding in Chief, but they will not be allowed to count any marks thus gained in determining their position in the order of merit.

XIII. Any Officer may, with the sanction of the General Commanding in Chief, compete at the Annual Final Examination without previously passing through the College; and, further, any Officer who desires to enter the College for one year only, will be permitted, if there be a vacancy, to present himself at the First Annual Examination of the Junior Division of Students (who will then have completed their first year), and if qualified may join the College accordingly. In each case the qualifications noted in Paragraph III. (above) will be required. Any Officer at the College, although of the Junior Division, may compete at the Final Examination of the Senior Division.

An Officer desiring to compete at the Final Examination should give not less than a year's notice of his intention, in order that he may receive a detailed statement of the subjects in which he, in common with the Students of the Staff College, will be examined. To count his full marks he will be required to produce the same number of Plans, and of Memoirs in Military History, as are prepared by the Students of the Staff College, certifying that they are his own unaided work, and that they were executed within the two years immediately preceding the Examination. If his application to compete be granted by the General Commanding in Chief, he will be required to attend at the College during the first three months of the term commencing the 15th July, in order that he may have the opportunity of executing the same Surveys, Reconnaissances and projects of Field Fortification as are executed by the regular Students.

An Officer desiring to compete at the Probationary Examination for admission to the College for a residence of one year only, consequent on the occurrence of a vacancy in the Junior Division, will be required to give six months' notice of his intention, in order that he, in like manner, may receive a detailed statement of the subjects in which he will be examined, and of the Plans and Memoirs which he will be required to produce, in common with the Students of the then Junior Division. On receiving

GENERAL ORDER, No. 786—continued.

permission from the General Commanding in Chief to compete, he will be directed to attend at the College during the first three months of the term commencing the 15th July, in order to have the opportunity of executing the same sketches and surveys as are executed by the Students.

No Officer will be allowed to present himself at either of these Examinations who shall have been examined during the same year for admission to the College for the ordinary period of residence.

Either or both of these Examinations will be liable to be suspended whenever it shall appear that the supply of Officers from the College is sufficient to meet the requirements for the Staff of the Army.

XIV. After the Final Examination the Council of Military Education will draw up and submit for the consideration of the General Commanding in Chief, a list of the successful Candidates, arranged according to merit, with a Special Report of those who particularly distinguished themselves, whose names will be also mentioned by the Council in their Report.

XV. Officers who shall have passed their Final Examination at the Staff College will be attached to each of the Arms successively, in which they have not previously served. They will be required to attend Drills, Parades and Field Days, and they will avail themselves of every practicable means of making themselves generally acquainted with the discipline, interior economy, field movements and duties of those Arms; and certificates to this effect will be forwarded to the Adjutant General by the Officers commanding the Corps to which they may have been attached.

It is presumed that a period of four months with each Arm will be the utmost that will be required in this respect.

XVI. The Regulations relative to the qualifications of Officers for direct Staff Appointments, will continue in force until the system which has been above detailed shall have fully come into operation, and the Examinations referred to in that Order will be conducted under the direction of the Council of Military Education.

Officers, however, who have attained the rank of Lieutenant Colonel will be exempted from the operation of that Order.

As soon as the College shall be in a position to supply all vacancies in the Staff of the Army, no Officer will be appointed to the Staff who shall not have passed the Final Examination of the College, with the exception of those who attained before the 1st January, 1860, the rank of Lieutenant Colonel, and in every case excepting Officers of proved ability in the Field.

XVII. Although the course of Mathematics at the College has been limited to that amount of knowledge which is considered essential to complete the Education of the Staff Officer, it is probable that many Officers may desire to pursue their Mathematical Studies to a much higher point, and any Candidates therefore who shall have proved their fitness for employment on the Ordnance Survey, or in the Topographical Department, by superior progress in the Science of Geodesy, as well as of Topography, will be named in the Report of the Council of Military Education as deserving of employment in those Services.

JAMES YORKE SCARLETT,
Adjutant General.

GENERAL ORDER. No. 787.**Instruction of Musketry.**

3—(1861).

Horse Guards, S. W., 2nd May, 1861.

His Royal Highness the General Commanding in Chief, having had under his consideration the results of the firing of troops armed with the rifled musket during the late wars, has observed that the destructive powers of that weapon have not been developed to the full extent.

His Royal Highness has, however, satisfied himself that the failure is not in the rifle, but has arisen from the want of a dexterous and skilful use of it.

To render the rifle as efficient as possible, a back-sight has been affixed thereto, so graduated as to furnish the required elevation for all distances from 100 to 900 yards. The correct adjustment of this sight entails a knowledge of distances which is not difficult to acquire, although considerable practice is required to keep it up; and the

GENERAL ORDER, No. 787—continued.

rifle, when the sight is correctly arranged, may be used with the fullest confidence of success by troops carefully trained, if calm and steady in their fire, and judiciously manœuvred.

As, however, much allowance must be made for the hurry and excitement consequent on close action, it is deemed expedient to lay down rules for general information, and for the guidance of officers of all grades in command of troops before an enemy, in order to insure the file and volley firing being, in future, effectively and rapidly executed.

It is therefore to be understood that, when firing in line or in square, at and under 300 yards, the flap of the back-sight is not to be raised at all, but aim is to be taken through the flanges which protect it. This will be found at once to ensure sufficient accuracy of direction, and practically to give adequate elevation, while the difficulty, under the circumstances, of getting the eye down to the bottom of the notch in the back-sight will be obviated.

When firing, in the open, at ranges beyond 300 yards,—and at all distances when firing from behind parapets, or under cover of any sort,—the back-sight is to be carefully adjusted; a true alignment, taken through the notch of the back-sight, on the object aimed at, and a correct elevation for the estimated distance, being essential to accurate shooting.

His Royal Highness directs that these rules be carefully explained to the non-commissioned officers and privates, by captains and officers of companies, and that they be observed at all division, brigade and battalion evolutions; also that officers generally make themselves proficient in a knowledge of distances, and thoroughly acquainted with the powers of the rifle.

Officers commanding divisions, brigades and garrisons are to ascertain by frequent inspections and close examinations that the Field and Company Officers possess a correct knowledge of distances and of the theory and practice of rifle shooting, as the effective use of the rifle on service depends, in a very great measure, on their efficiency on these points.

If the instructions herein detailed are attended to, His Royal Highness is satisfied that the rifle will be found to be a weapon of terrible efficiency in close action, and, when dexterously used, of equal value against bodies of troops and in silencing artillery at distances up to 900 yards.

By Command of HIS ROYAL HIGHNESS
THE GENERAL COMMANDING IN CHIEF.

JAMES YORKE SCARLETT,
Adjutant General.

GENERAL ORDER No. 781 was cancelled prior to its being issued,—that number, therefore, is blank.

GENERAL ORDER. No. 788.

Horse Guards, S. W., 6th May, 1861.

His Royal Highness the General Commanding in Chief has been pleased, with the concurrence of the Secretary of State for India in Council, to select Brevet Major William Wilberforce Harris Greathed, *C.B.*, Bengal Engineers, for the appointment of Assistant Military Secretary at Head Quarters, as a temporary measure, *vice* Brevet Lieutenant Colonel H. W. Norman, *C.B.*, who has been permitted to relinquish that appointment for the purpose of resuming that of Deputy Adjutant General in Bengal.

By Order of HIS ROYAL HIGHNESS
THE GENERAL COMMANDING IN CHIEF.

JAMES YORKE SCARLETT,
Adjutant General.
